

ServerView® Remote Management iRMC S4 Web Server

The screenshot displays the ServerView Suite web interface for a Fujitsu server. The top navigation bar includes the Fujitsu logo and the text "ServerView Suite". Below this, a header identifies the server as "PRIMERGY RX2540 M2" and the page as "ServerView® Remote Management iRMC S4 Web Server". The URL "prod08.eygleflow.io" is visible in the top left.

The left sidebar contains a navigation menu with the following items:

- System Information
 - System Overview
 - System Components
 - AIS Connect
 - System Report
- BIOS
- iRMC S4
- Power Management
- Power Consumption
- Sensors
- Event Log
- Server Management
- Network Settings
 - Ethernet**
 - Ports and Services
 - Proxy Settings
 - DNS
 - SNMP
- Alerting
- User Management
- Console Redirection
- Video Redirection (HTML5)
- Virtual Media
- Task Manager

At the bottom of the sidebar are links for "Third Party Licenses", "Logout", and "Refresh".

The main content area is titled "Network Interface Settings" and contains the following configuration details:

- MAC Address: 90:1B:0E:A7:CB:B2
- LAN Speed: Auto Negotiation (dropdown menu)
- LAN Port: Management LAN (dropdown menu)
- Max. Transmission Unit (MTU): Management LAN (dropdown menu)
- Bonding Enabled: Shared LAN (dropdown menu)
- IPv4 Enabled:
- IPv6 Enabled:

Below these settings is an "Apply" button. The next section is "IPv4 configuration" with the following details:

- IP Address: 192.168.178.214
- Subnet Mask: 255.255.255.0
- Gateway: 192.168.178.1
- DHCP Enabled:

Below this is another "Apply" button. The final section is "VLAN configuration" with the following details:

- VLAN Enabled:
- VLAN Id: 0
- VLAN Priority: 0

Below this is a final "Apply" button.
